COMMENTS

In what ways would you change this course to better serve your academic goals?

The green screen project was the most helpful thing we did. It would be great if there were more projects.

Nothing. It is a great class and I learned a lot.

Having the class do all projects instead of taking ^{written} quizzes or exams

Great class, awesome teacher

Possibly do some more practical application, like our green screen project. Rather than saying the steps of what we should do, tell us the goal of a project / the outcome we want & let us explore what we can do

~~Another~~ project would have been good, but there was not time this semester.

I loved this class! Very informative! Professor Mansur is very passionate about what he does, always available to the students.

This was a great class - I loved learning more about Adobe Creative Suite - such good, practical information!

The green screen project was great. we should have done more projects like that

Great course, great teacher. One of my favorite classes while at TCU.
